## Insurance

One of the biggest bottlenecks in getting new insurance products to market is the process of preparing and submitting filings to regulatory bodies. The longer it takes to prepare and receive approval on a new product, the more revenue opportunities are lost. Valoores In'GRC Insurance speeds up the creation of regulatory filings and enables significant cost savings.

**You Have The Value  
We Bring You The Added Value**

### Key Benefits:

- Provides end-to-end automation of state filings
- Electronically submits documents directly to Department of Insurance via seamless integration with SERFF
- Includes up-to-date filing requirements
- Manages filings in a central repository
- Seamless market conduct process

- Preparing and submitting a filing to regulatory bodies has traditionally been a slow, cumbersome process, relying heavily on paper, file folders, and manuals filled with regulations. Valoores in'GRC Insurance provides “one-stop processing and reporting” for all activities related to a filing – including a repository of filing forms and documents – and tracks the history of work that has been done.
- With Valoores in'GRC Insurance’s easy-to-use interface, you can:
  - Manage filings in a central repository, with a single point of access to all compiled and stored documentation
  - Run instant reports, which track status, speed to market, and staff productivity.
  - Automatically convert all filing components to PDF for submission via the System for Electronic Rate and Form Filing (SERFF)
  - Send and receive status information from Departments of Insurance (DOI), via two-way communication with SERFF
- Valoores’ state-of-the-art in'GRC Insurance solution automatically:
  1. Assists with filing research
  2. Converts entire filings to PDF for submission, as well as allowing for native Excel format when necessary
  3. Provides, once the completed filing is ready for submission to regulatory agencies, a simple click of a button and the whole package is automatically uploaded via the in'GRC Insurance’s SERFF integration feature.
- Valoores in'GRC Insurance provides complete, seamless integration with SERFF, which provides a way for insurance companies to submit their filings electronically. Valoores in'GRC Insurance leverages and extends SERFF, letting carriers automate the entire process, from research and preparation to submission of the filing.

## Key Features:

- Increased efficiency and decreased time-to-market
- Increased revenue opportunities
- Increased product integrity
- Streamlined market conduct audits of state filings
- Increased product integrity, through a wide range of immediate, accurate management reports and status updates

- Valoores In’GRC Insurance speeds time to market with less time spent on research, filing preparation and tracking. Our solution provides:
  - End-to-end automation of the filing process, which reduces manual preparation and provides more time for analysts to negotiate with the DOI.
  - Information at your fingertips with robust reporting
  - Seamless integration with SERFF, which requires no additional data entry.
- Valoores In’GRC Insurance lowers operating costs by increasing productivity and time savings related to filings and preparing for market conduct audits. At Valoores, we are committed to the insurance industry. Whether it is product development, sales, account management or support, we are focused on surpassing your expectations with each and every interaction.
- With the Valoores’ in’GRC Insurance solution, insurers experience decreased time to market, lower operating costs, and greater opportunities for revenue by taking advantage our solution’s repository to manage and track filing forms and documents as well as full integration with SERFF.

VALOORES established in 1989, has embraced the ever changing and metamorphosing Banking & Finance Business Models, to sustain Growth, and tackle Challenges segregated from Governance, to Risk, Compliance, Profitability, Financial Crime, Payments, Competition, Real Estate. Branding, Loyalty, Trust & Engagement, alongside Predictive Analytics and an Omni-Channel CRM.
