

Software Developer/Engineer

Job Overview

We are looking for a Software Developer/Engineer with experience in building high-performing, scalable, enterprise-grade applications.

The new candidate will be part of a talented software team that works on mission-critical applications. Software developer roles and responsibilities include managing Java/Java EE application development while providing expertise in the full software development lifecycle, from concept and design to testing.

Responsibilities

- Design, develop, implement, and maintain java application phases, code, and software.
- Conduct software analysis, programming, testing, and debugging, as well as recommending changes to improve the established processes.
- Transform requirements into stipulations and identify production and non-production application issues
- Support continuous improvement by investigating alternatives and technologies and presenting these for architectural review
- Patience and perseverance to overcome challenges, solve problems, and learn new computer languages and techniques.
- Being able to work under stressful circumstances.

Requirements

- Design, develop, troubleshoot and debug Java-based applications (Java8 or plus)
- Strong knowledge of Relational Databases SQL
- Experience with web development using React and/or Angular, CSS, jQuery, Bootstrap, AJAX, HTML, Javascript.
- Competence and comfort using Spring modules such as Spring Core, Spring MVC, Spring Boot, and Spring security
- Strong Experience in API data exchange, REST Template and Web Client
- Experience with Messaging system and Junit
- Strive for continuous improvement by building continuous integration, continuous development, and continuous delivery pipelines (CI/CD Pipeline)

Qualifications:

- Degree in Computer Science or related field.
- 6+ years of demonstrable experience

- Experience with user interface design, database structures, and statistical analyses.
- Analytical mindset and good problem-solving skills.
- Excellent written and verbal communication.
- Good organizational skills.
- Ability to work as part of a team.
